3. After choosing account, set a password

The image shows a Google sign-in interface. At the top is the Google logo. Below it, the text "Hi 109_FYIT" is displayed. Underneath is a dropdown menu showing the email address "imransh2002@gmail.com" with a small downward arrow. The instruction "To continue, first verify it's you" is followed by a password input field with the placeholder text "Enter your password". Below the input field is a checkbox labeled "Show password". At the bottom left is a link "More ways to sign in", and at the bottom right is a blue "Next" button. At the very bottom of the page, there is a footer with "English (United States)" and a dropdown arrow, followed by links for "Help", "Privacy", and "Terms".

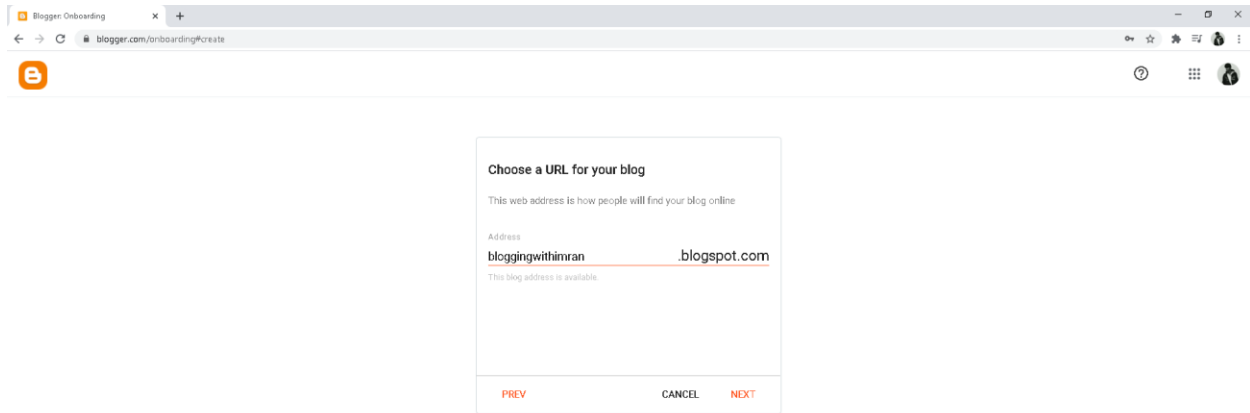

4. Write a name for your blog.

The image shows a web browser window with the address bar displaying "blogger.com/onboarding/create". The page content is titled "Choose a name for your blog". Below the title, a subtitle reads "This is the title that will be displayed at the top of your Blog.". There is a text input field labeled "Title" with a red underline and a character count "0 / 100" on the right. At the bottom of the form, there are three buttons: "SKIP" in red, "CANCEL" in black, and "NEXT" in red.

5. Write a url from which anyone can see your blog through that link.

The screenshot shows a web browser window with the address bar displaying 'blogger.com/onboarding/create'. The page features the Blogger logo in the top left and navigation icons in the top right. A central modal box titled 'Choose a URL for your blog' contains the text 'This web address is how people will find your blog online'. Below this, a text input field labeled 'Address' contains 'bloggingwithimran' followed by a red underline and '.blogspot.com'. A small message below the input states 'This blog address is available'. At the bottom of the modal are three buttons: 'PREV' in red, 'CANCEL' in black, and 'NEXT' in red.

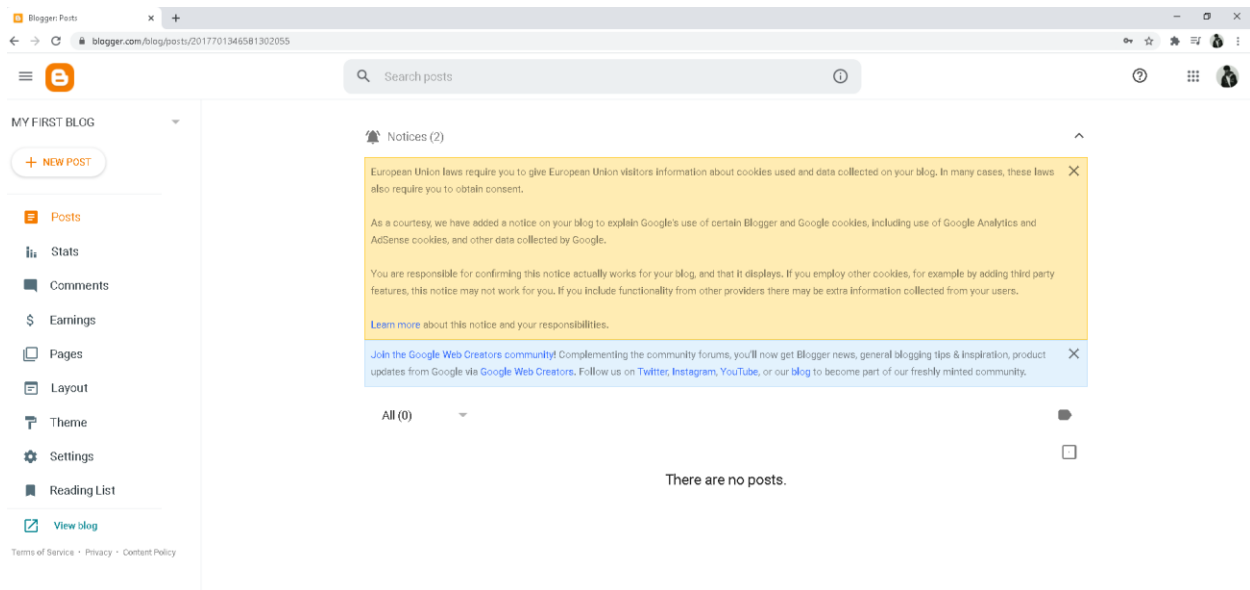

6. Confirm your url.

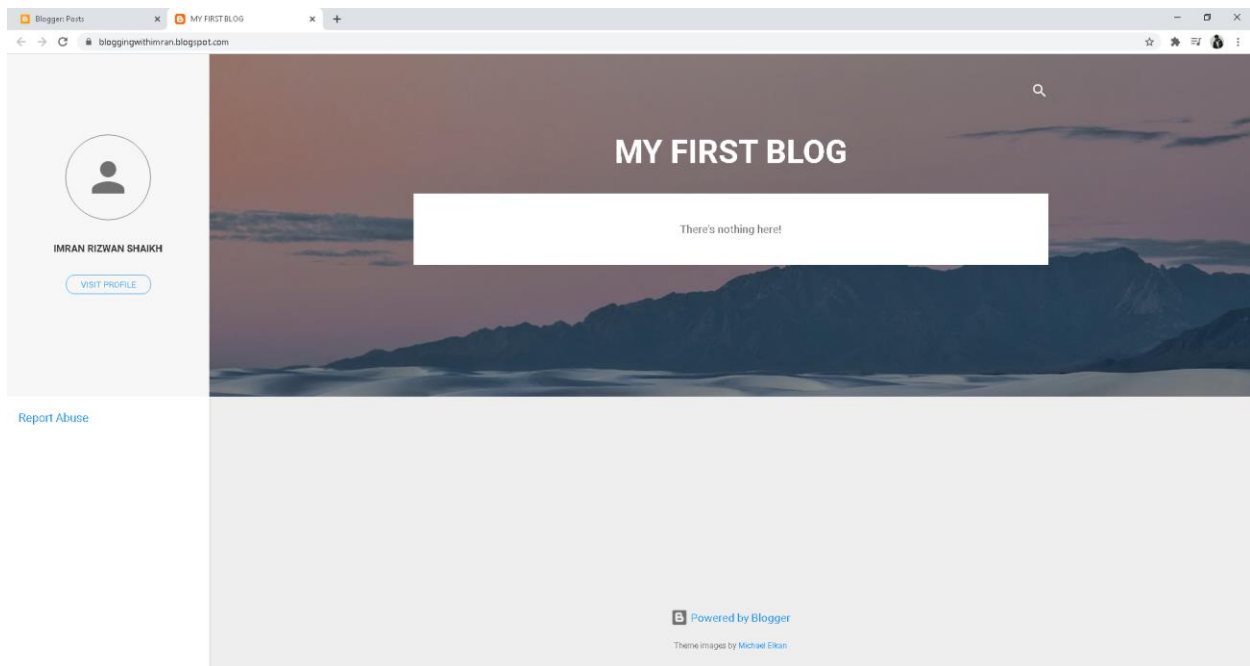

The screenshot shows the same web browser window as the previous step. The central modal box is now titled 'Confirm your display name' and asks 'How do you want your name displayed to readers of your blog?'. Below this, a text input field labeled 'Display name' contains 'IMRAN RIZWAN SHAIKH' followed by a red underline. A character count '19 / 200' is visible to the right of the input. At the bottom of the modal are three buttons: 'PREV' in red, 'CANCEL' in black, and 'FINISH' in red.

WINTER IN AZAMGARH

Winters in Azamgarh see very large diurnal variations, with warm days and downright cold nights. Cold waves from the Himalaya region cause temperatures to dip across the city in the winter from December to February and temperatures below 5 °C are not uncommon. The average annual rainfall is 1,110 mm. Fog is common in the winters, while hot dry winds, called loo, blow in the summers. Recent years, the water level of the Tamsa has decreased significantly.
